

SEMI-AUTOMATIC PALLETISER UNI601

Semi-automatic machine for carton palletising, with low-level loading and pallet at floor level

Consisting of:

- Double-column structure for layer loading/unloading platform lifting
- Safety block with pneumatic activation
- Loading/unloading platform with retracting plane
- Layer back block with motorised bar
- Perimetric safety guards complying with CE regulations
- Electric installation with CE regulations

APPROX. TECHNICAL DATA

- Pallets dimensions : 800x1200mm / 1000x1200mm
- Max pallets height : 1900mm
- Production : 10/15 cartons/min
- Installed power : 4 kw
- Max layer weight : 200 kg

This technical sheet gives an approximate description of the machine. The technical features and the machine configuration are to be confirmed at the time of order.
